Washington Township Municipal Utilities Authority
46 East Mill Road
Long Valley, New Jersey 07853

Attn.: Washington Township Municipal Utilities Customer

Re.: **Updated Lead and Copper Rule - Initial Lead Service Line Inventory**

To Whom It May Concern:

On July 22, 2021, the Governor of New Jersey signed legislation for mandatory lead service line replacement, "NJ Bill A5343/S3398", P.L.2021, Ch. 183, effective immediately upon signature. The legislation requires all public community water systems to inventory and replace all known lead service lines and address all service lines of unknown materials within their service areas by July 22, 2031, as well as banning the use of partial lead service line replacements in public water systems. In response to this legislation, the Washington Township Municipal Utilities Authority (WTMUA) has prepared an initial inventory of addresses serviced by the WTMUA, in which materials of service lines at the recorded addresses were identified in the system in order to identify the existence of lead in the WTMUA distributions system. The New Jersey Department of Environmental Protection (NJDEP) Division of Water Supply & Geoscience, developed an inventory template DEP_10-S_00014 in order to assist public water systems in tabulating service line inventory information to the Bureau of Safe Drinking Water (BSDW) in accordance with the Federal Lead and Copper Rule and P.L.2021, Ch. 183. The published inventory is in compliance with the NJDEP template. Additionally, this evaluation will be ongoing until all service line materials on both the public and customer side have been identified to confirm the presence or absence of lead in the public water system and comply with the Rule.

Regarding the published inventory, a legend has been prepared in order to assist the viewer in identifying the service line inventory information – the legend for the lead service line identification is as follows:

LEAD SERVICE LINE INVENTORY SYSTEM – ABBREVIATION IDENTIFICATION			
Service Line Category Abbreviation	Abbreviation Meaning	Service Line Materials Abbreviation	Abbreviation Meaning
L	Lead	L	Lead
G	Galvanized	G	Galvanized Iron/Steel
LC	Lead Connector	C	Copper
UL	Lead Status Unknown	P	Plastic
NL	Non-Lead	O	Other/Misc. Materials
		UX	Unknown Material
		NA	Not Applicable

Regarding this legend or any question pertaining to the lead and copper rule updates, please contact our offices for further information.
