ZION CHURCH

The Church is ready to go for construction permits and have a few items to resolve with the MUA.

- Mr. Costic will request the architect to deepen the foundation by one block. That request is the remaining item required for MUA agreement. The request should be sent out no later than the end of the week. Mr. Costic will also contact the WT Planning Board regarding the decision.
- The MUA and Zion Church agreed to change the Easement Agreement to reflect that any MUA repairs that require the new driveway to be dug up will be shared 50% / 50% between the MUA and Zion. The restoration will be for only the area that was disturbed. The old driveway will remain 100% MUA responsibility if dug up for MUA pipe repairs. The brick sidewalks and patios will remain 100% Zion responsibility. The Attorney will revise the agreement and distribute. The documentation on who paid for the original driveway will be provided to the MUA by Zion Church.
- Zion Church has asked the MUA to keep the EDU's being charged for the addition to remain at 4 EDU's.

WASHINGTON TOWNSHIP MUA

May 5, 2010

They site that St. Marks is being charged 4 EDU's with three times the meeting area and sanctuary and three times the congregation. Also, based on their assumption that the High School is metering their usage, they will be willing to meter to avoid the higher EDU's. The MUA advised that the High School is not billed on metered usage for sewer. The DEP allowed the High School to base a septic system based on metered flow of water. This was carried over as part of the development of the EDU's. The Church is willing to use water flow as a basis. The MUA consistently does not use flow for developing EDU's to treat everyone equally. According to Zion's understanding of the High School Sewer Agreement, the High School has the option of being billed on metered usage or EDU's. The MUA will look into this further. Zion will provide a copy of the Agreement to the MUA. The Nursery School will not be moved into the new building. The option to disconnect the building that will be changed to storage can be done after construction since this will be a temporary office during construction. The MUA will review and make a determination.

FAIRMOUNT CHURCH

The Church is adding a bathroom in the Sanctuary. They are requesting a waiver of the connection fee per the original 1993 Tewksbury Sewer Connection Agreement. A copy of the Agreement was provided and the MUA will review and advise findings.

SM WATER

Water restrictions have been approved and will begin May 15th.

An Ag Board Hearing, scheduled for 5/10/10 at 6:30 pm to inform the public that the MUA is looking to put a well on a local farm, and the Ag Board feels that this is detrimental to the farm land. The MUA will be providing the public with information on why the well is needed. This is more of an advisory meeting and should have no impact on the MUA plans to move ahead with the well. One of the Ag Board's concerns is that several acres will need to be taken for well head protection. Mr. Costic and Mr. Gregory attended a meeting with the DEP that advised that the only requirement is 50 feet surrounding the well.

The MUA is contesting the DEP rescinding of the MUA well permit for the Smith property. The MUA attorney feels that we have a legal right to the well on the property due to the Declaration of Taking for the Condemnation and is filing a response.

VALLEY VIEW CHURCH

A representative of the Church would like an update on the WMP approval in order to go ahead with the WT Planning Board process. The MUA needs to coordinate with an outside resource to finalize the needs for the DPW. There remains a month to two weeks worth of work to provide the DPW response. Valley View Church has a fall back with a septic design but will need to make a determination soon on either the septic or sewer hook up. The MUA suggested that The Church go to the WT Planning Board and request to move ahead with construction advising that there are two viable options for wastewater removal.

DEP EDU CALCULATIONS

An engineer asked for advice on calculating EDU's for a restaurant facility that he is currently working with. It was agreed that this would be discussed during business hours.

CLOSED TO THE PUBLIC AT 8:46 PM
