re: <<ACCOUNT NUMBER>> NOTICE OF UNKNOWN SERVICE LINE  
COMPOSITION

Dear Resident:

The EPA's Lead and Copper Rule Revisions require that all water systems notify customers, non-paying consumers, and any off-site owner of a property (e.g., landlord) when they are served by a service line of unknown composition.

As part of that requirement and per P.L.2021, Ch. 183 (Law), the Authority is in the process of inventorying all customer service lines. Attached you will find the Service Line Material Survey that will complete the Authority's obligations.

As of the mailing of this letter, the Authority has not received your survey, and our most recent inventory records indicate your address service line material to be **unknown**. To fulfill the Authority's compliance with State and Federal Regulations, the Authority requires the survey to be filled out and returned by **every** water customer.

Please see the attached form, with instructions, on how to fill out the survey. The survey can be delivered to the office, emailed to [Chris@wtmua.org](mailto:Chris@wtmua.org), or submitted electronically per the attached instructions. If you have any questions or concerns, please call the office at 908-876-3145.

Sincerely,

*Thomas McAndrew*

Thomas McAndrew  
Executive Director

Dear Washington Township Municipal Utilities Authority (“Authority”) Water Customer:

In July 2021, P.L.2021, Ch.183 (Law) was enacted, requiring all public community water systems to inventory the water system service line materials for both the utility and property owner portion of the service line.

In our effort to comply with this requirement, we ask you to fill out and return this Service Line Material Survey. Your participation will help the Authority complete this State requirement.

The survey can be returned by mail to 46 E Mill Rd, Long Valley, NJ 07853, dropped off in the drop box at the same location, faxed to 908-876-5528 or emailed to [Chris@wtmua.org](mailto:Chris@wtmua.org).

The survey can also be provided electronically by scanning this code from your phone:

Thank you for your assistance,  
Thomas McAndrew, Executive Director

Please read the following directions to verify your service line pipe material:

1. Look for the water pipe that comes through the outside wall of your home.
2. Use a key or coin to gently scratch the pipe (like you would scratch a lottery ticket).
4. Place a magnet on the pipe to see if it sticks to the pipe.
5. Determine your service line pipe material per the following table:

Appearance	Magnet Sticks	Service Pipe Material	Photo
Dull brown on the outside, but will be the color of a bright penny where scratched	No	Copper	
Dull and soft, but will turn shiny silver where scratched	No	Lead	
Scratched area remains dull gray	Yes	Galvanized Iron/Steel

## Washington Township MUA - Service Line Material Survey Customer Water Service Line Survey

1. Account number:

2. Property address:

Street:

Apt/Suite:

City:

Zip Code:

3. What service line pipe material is located on your property?

Please use the above directions and table to determine the Service Line Pipe Material at your residence.

- |                                                |                                  |
|------------------------------------------------|----------------------------------|
| <input type="checkbox"/> Copper                | <input type="checkbox"/> Plastic |
| <input type="checkbox"/> Lead                  | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Galvanized Iron/Steel |                                  |

4. Please select the item that best describes the use of your property:

- |                                                                           |                                               |
|---------------------------------------------------------------------------|-----------------------------------------------|
| <input type="checkbox"/> Single Family                                    | <input type="checkbox"/> School               |
| <input type="checkbox"/> Multi-Family (condo, apartment, townhouse, etc.) | <input type="checkbox"/> Veterinary hospital  |
| <input type="checkbox"/> Restaurant                                       | <input type="checkbox"/> Medical Office       |
|                                                                           | <input type="checkbox"/> Industrial / Factory |

5. If your property has a line that extends beyond the home, please check the item that best describes the use:

- |                                                    |                                               |
|----------------------------------------------------|-----------------------------------------------|
| <input type="checkbox"/> Not applicable            | <input type="checkbox"/> A separate building. |
| <input type="checkbox"/> Farming / animal watering | Building use: _____                           |
| <input type="checkbox"/> Irrigation system         |                                               |

6. Please select if you have the below item at your property.

- |                                                   |                                                                         |
|---------------------------------------------------|-------------------------------------------------------------------------|
| <input type="checkbox"/> Water backflow preventer | <input type="checkbox"/> Fire service                                   |
| <input type="checkbox"/> Laboratory facilities    | <input type="checkbox"/> Private well                                   |
| <input type="checkbox"/> Radiographic facilities  | <input type="checkbox"/> Water booster pump and / or water storage tank |
| <input type="checkbox"/> Pool / hot tub           |                                                                         |

**RETURN SURVEY BY MAIL, LEAVE IN THE DROP BOX AT 46 E MILL RD 24/7,**

**FAX TO 908-876-5528, OR EMAIL TO CHRIS@WTMUA.ORG.**
